NOW

About the Award

Are you a college student passionate about transforming the future of transportation through technology? Spend part of your summer building a stronger future—and a stronger resume—by applying for the 2025 ITS California / CTF Scholarship!

We're awarding four scholarships of \$5,000 each to support students advancing the field of Intelligent Transportation Systems (ITS) through engineering, planning, computer science, public policy, and related fields.

Eligibility

- Undergraduate and Graduate Students currently enrolled or accepted into an ABET- or WASC-accredited California university.
- Two scholarships are available for undergraduate students, and two for Master's or Ph.D. students.
- Fields of study must relate to transportation technology, including, for example, engineering, computer science, transportation planning, or public policy.
- Open to all eligible students—international students on F-1 or J-1 visas are welcome to apply.

Application Requirements

1. Transcript with relevant ITS coursework.
2. Current course list and upcoming academic year course plan.
3. Proof of enrollment or acceptance at a qualifying California university.
4. Two letters of reference commenting on academic performance, career goals, and ITS potential.
5. A 750-word essay about your motivation to work in ITS, including leadership and community involvement.
6. A two(2)-minute video: Your elevator pitch and vision for transportation innovation
7. A one (1)-page resume.

Submit applications and letters of reference to
ITS Scholarship Chair – its-caadmin@itscalifornia.org

Deadline To Apply: August 15, 2025
